

Compact design vs. reliable power

only Comdel
delivers both

It's not just about building them smaller,
it's about building them right.

Comdel's CB Series is the new generation of smaller, light-weight RF power supplies, built on proven, reliable RF technology. These solid-state generators are available in three sizes from 15 lbs. to 55 lbs. in chamber and rack-mount units.

CB Series features include:

- Power ranges from 50 to 5000 watts
- Wide range of frequencies from 2 to 60 MHz
- Patented S-Technology for stable output

**Find the perfect fit
for your process!**
